

GEO-EXTREME 2021

Savannah, Georgia | November 7-10

ASCE Specialty Conference

Professional Development Hours (PDHs) Claim Form

PDHs are a recognized unit of record in non-credit professional development programs that can be earned for participation in activities at this conference. If you registered for the conference and attended any of the selected sessions below, you have earned Professional Development Hours. Use this form to keep track of which conference sessions you attend.

Instructions

1. Check off each session you attend and track the number of PDH credits you earn for the conference. (1 PDH is equal to 1 contact hour (nominal) of instruction or presentation, rounded down to the nearest half-hour.)
2. Approximately thirty days after the conference, you will receive an email containing a link to login to ASCE's MyLearning website where you can generate a transcript of the sessions you attended and receive credit for the professional development hours (PDHs) earned during your time at the conference.
3. There are differences from state to state in continuing education requirements for professional engineering licensure. Each state licensing board has the final authority to approve course, credits, PDHs, and other methods of earning credits in that state. The Geo-Institute strongly recommends that individuals regularly check with their state licensing boards for specific continuing education requirements in their jurisdictions that affect professional engineering licensure and the ability to renew licensure.
4. When completed, return this form to the registration desk, or email it to geo-institute@asce.org. You may also mail it to 1801 Alexander Bell Dr., Reston, VA, 20191.
